

Alden Electrical Festival of Cycling 2015

Huge congratulations to the riders that braved the conditions. 50 riders that entered took a look at the weather and decided against it, so you should feel extra pleased with yourselves.

In the true spirit of a sportive, we've simply included the numbers and times. Lots of you swapped distance at various points, so we've not included the distances. You know what you did.

Any problems with the results, please contact me at:

See you all next year!
